-Open M-F 9am-6pm + Limited weekend hours (call for availability)

Emergency Plans

Air Horns are located in all activity closets as well as the camp office and Kitchen. In the case of an emergency SCR (or the nearest adult) should sound the horn per the following system:

1 = out of water (example- lightning)

2 = all to soccer field (example- medical emergency, missing campers)

3 = all to cabin / building interiors (example- tornado, hurricane)

First aid kits are located in every activity shed, the main kitchen, and Zimmerscheidt Hall

-Guest groups are responsible for their own emergency and medical transportation. Please have on vehicle designated for this purpose

The emergency meeting point is, by default, the camp office which is located near the gate. Groups may choose to change this location.

Stoney Creek Ranch does not have people coming and going frequently. If you notice an adult on site that does not appear to be staff or with your group please let your group leader know.
